Description:

From Publishers Weekly Balogh continues her chronicle of the Huxtable family in this so-so Regency. Stephen Huxtable, earl of Merton, is dashing, wealthy and unattached, which makes him a juicy target for widow Cassandra Belmont, but she soon learns that heartless seduction is not as easy as she'd hoped. As Stephen begins to probe her past, they find themselves actually falling in love. Surprisingly for a Regency romance, Balogh tackles themes like alcoholism, domestic violence, miscarriage and female independence. Cassandra's mistrust and vulnerability is understandable, and Stephen is a surprisingly mild, modern type who seems miscast as a Regency hero. While their conflict is believable—she fears a loss of freedom, he fears that she will never be able to trust—the conclusion feels overly contrived. Fans of the series will enjoy, though genre purists may find something off about the modern sensibilities. (*May*)

From *Starred Review* Cassandra Belmont has reached a decision: she is going to become a courtesan. Now all she has to do is select the right (incredibly wealthy) patron, which may be a bit difficult since the rumor that Cassandra took an ax to her late husband is still busily circulating throughout the ton. Fortunately, dazzling and rich Stephen Huxtable, the Earl of Merton, is one of the few people in London who completely dismisses the idea that Cassandra could be a murderess. Getting Stephen to fall in love with her proves to be ridiculously easy, but the one thing Cassandra hasn't counted on is that her new lover might demand more from her than a simple business arrangement. With her inimitable, brilliantly nuanced sense of characterization, elegantly sensual style, and droll wit, best-seller Balogh continues to set the standard to which all other Regency historical writers aspire while delivering another addictively readable addition to her Huxtable family series. --John Charles --This text refers to an alternate edition.
